

# PROXES CF2 SUV

Proxes CF2 SUV was developed to complement the characteristics of smaller crossover and compact SUV cars.

With a new silica tread compound, Proxes CF2 SUV offers shorter wet braking and improved fuel economy.

Lightweight construction combines with the new compound to provide longer tyre life, making Proxes CF2 SUV the smart choice for SUVs.

## Tread Pattern Features

- 1 WIDE TREAD**  
 High stability performance.  
 Good tread wear.
- 2 RIB PATTERN**  
 High stability performance.  
 High braking performance.  
 Low noise.
- 3 STRAIGHT GROOVE**  
 Good hydroplaning resistance.

15 - 20 inch. Speed indices H, V and W.
